PREPAREDNESS PLAN

People Should Think For Themselves and Avoid Political Buncombe.

Washington, January 10.—To those who may be carried away by the cooked-up enthusiasm of the "preparedness" campaign now being conducted throughout the country by the munition interests and those patriotic societies that are misled by insidious influences to see great danger threatening the United States, it is well to consider an editorial printed recently in the Corona (Cal.) Courier. California, be it remembered, is one of the favorite stamping grounds of the war jingo, where the peril of the Japanese is ever and anon flaunted to stir up "patriotism."

Says this sensible editor, in discussing the political issues of 1916, as quoted from the Literary Digest:

"The issue should not be that old ghost of an issue, the tariff, but rather a return of truly business administration, run on business principles, with a view of getting the greatest returns for the money spent. All this talk of a greater army and navy is pure buncombe, and the administration should be big enough to see the hidden graft. If only the people would do a little thinking for themselves and not let the big daffies do it all!"

Henry Ford, who is vastly interested in the so-called "preparedness" campaign, said recently after reading much in the newspaper about the matter: "I would like to know how much of this patriotic fever the editors talk about comes from the hearts of the American citizen and how much from the pocketbook of the men who expect to land the contract for equipping the big military forces proposed. In the first place I think the American knows the country to be in need of no vast armed force, for with that comes the beginning of the end of democracy, and in the second place I think he is too shrewd to permit any such program to be stuffed down his throat by men who are going to make money out of it."

SOME RECORD

Dover Treasurer's Annual Report Shows Something Out of the Ordinary.

The annual report of the treasurer of the town of Dover discloses the fact that the town has no need for peace officers.

During the year there was collected for fines only \$8, and \$2.45 was paid W. H. Thomas for taking the prisoner to jail and \$1 to Mr. Thomas for feeding the prisoner, leaving the town's cash box a balance of \$4.55 out of the \$8 collected.

If there is another community the size of Dover that can beat this record, let's hear from it.

MOOSE LEADERS MEET IN CHICAGO.

Chicago, January 10.—At the call of George W. Perkins of New York, the members of the Progressive national committee will dine tonight in Chicago and will meet tomorrow to discuss important developments.

Work A Pleasure

is largely a matter of health—and in this a big factor is eating the right kind of food—food that repairs the daily wear and tear of body and brain—keeps one in trim.

Grape-Nuts FOOD

made of whole wheat and malted barley, supplies all the rich nourishment of Nature's field grains, including their vital mineral salts, so lacking in many foods, but all-important in building up and sustaining brain, nerve and muscle tissues.

Grape-Nuts with cream or good milk supplies sound, well-balanced nourishment—makes for happy days and successful endeavor.

PRETTY PERUVIAN GIRL

Miss Teresa Granda y Paez is an interesting addition from the diplomatic circle to the list of debutantes in Washington society this winter. Miss Granda is spending the winter at the Peruvian legation with her uncle and aunt, the minister from Peru and Mme. Paez.

CAN'T PROVE HE IS DEAD

Will of a Man Who Has Been Missing Twenty-One Years, Offered for Probate.

Denver.—For the first time in the history of the Denver county court the will of a man of whose death there is no record has been lodged with the clerk of the court. It may become necessary to have the maker, George T. Sheets, declared legally dead before the instrument is offered for probate.

Sheets, a contractor, made the will in 1893. He was then seventy-two years old. A year later he disappeared. The family did not know of the existence of the will until a few days ago, when Attorney Edwin Parke discovered the document in his safe. Parke turned it over to the clerk of the court.

MORE JOBS THAN CHEMISTS

Scarcity of Engineers Shown at Columbia University Since Outbreak of War.

New York.—Since the outbreak of the war and the resulting increase in chemical projects in this country the demand for chemical engineers has grown so rapidly that the companies are finding it difficult to fill the many places that are now open.

Indication of this was given at Columbia university when Dean Frederick A. Goetze of the graduate engineering school reported that he had received a call from a mining company for several chemical engineers familiar with the iron and steel industry, but that he has been unable to find any of the recent graduates who were not already well placed.

IS LONELIEST OF PUPILS

Missouri Youth Has School and Teacher All to Himself—Sports Are Eschewed.

Chillicothe, Mo.—Livingstone county has the smallest possible school in the world—it has just one pupil. But, despite the small enrollment, it keeps grinding steadily away, confining its activities principally to the text books and eschewing football and other forms of athletics.

The school in question is in district No. 2 in Medicine township and Miss Mary Phillips is the teacher. The list of matriculants has not been published. When the term began five weeks ago, it was anticipated that a number of children would enroll, but only this one boy came, so the teacher started in with the course.

Largest Patient. Tulsa, Okla.—Miss Ada Boyd of Wyandotte is so large that a drey was required to convey her from a railway station to a hospital to undergo an operation. Miss Boyd weighs 500 pounds. She is the largest patient ever registered at the institution.

OPEN TWO MILLION ACRES TO ENTRY.

Washington, January 10.—Some two millions of acres of non-irrigable land in Pennington, Custer and Fall River counties, South Dakota, are today thrown open for entry by the Department of the Interior.

TRADE FLAG SUGGESTED.

Boston, January 10.—A conference on eliminating the economic causes of war is being held in Faneuil Hall today. A proposal for an international trade flag which would secure immunity from attack to all merchant vessels of all nations, will be endorsed.

SPORT NOTES.

Hughie Jennings has secured as coach for his pitchers that wise old backstop, Billy Sullivan. The Detroit batteries, heretofore the weakest cog in the Jennings wheel, are expected to show something under his tutelage.

Ted Meredith will meet Joe Higgins in the 600-yard special race at the Millrose games on January 26, and he will be put to one of his hardest tests.

George T. Adee, who was prominent in Yale athletics, and is president of the Country Club of Westchester, is slated to head the United States National Lawn Tennis Association.

Jesse Burkett, one of the veterans of baseball, has quit the game. He recently sold his interest in the Worcester, Mass., club of the New England League. Jesse was a colt in the majors for some years, and has won several pennants with his team in the minors.

The World Champion Red Sox are jubilant over the acquisition of Sam Agnew of the St. Louis Browns. Sam is a big backstop, has a speedy wing and is a hog for work. The Boston management has been angling for him a while.

The heavyweight glove title of the world has developed into a financial institution that rivals Wall Street. A former barber is the Morgan in the new finance, but he lacks the Morgan element of hiding his operations.

WEAK FROM GRIPPE

Home Missionary Tells How She Restored Her Strength.

"I am a Home Missionary, was weak and run-down after a hard spell of LaGrippe. I had headaches, indigestion and pains in my chest, and was tired all the time. A friend asked me to try Vinol and the result is I am free from those troubles and I feel well and strong and able to go to work again." Mrs. Hattie Johnson, Towanda, Pa.

The reason Vinol was so successful in building up Mrs. Johnson's health is because it is a constitutional remedy which contains peptonate of iron to enrich and revitalize the blood, the nourishing properties of beef peptone and the healing medicinal extractives of fresh, healthy cod's livers, all combined in a delicious native wine, without oil.

We wish every person in Maysville who is suffering from a weakened, run-down, debilitated condition, would try our Vinol on our guarantee to return their money if it fails to benefit them.

SHIP PURCHASE

More Expensive Than Subsidy—Republicans Will Expose Democratic Fallacy.

Washington, D. C.—Republicans in Congress this winter will be relentless in exposing the weakness and the disaster which have characterized Democratic administration of national affairs—but they will not content themselves with a program of mere negation. Against every Democratic proposal for the raising of revenue, for defense or for any other purpose of national scope and interest, the Republicans will present their own well grounded plans for legislation, so that the issues may be clearly defined.

Some of these Republican proposals will have to await the completion of the Democratic program for the session. Others, however, are already prepared—among them the measure which Senator Gallinger of New Hampshire, Republican floor leader in the upper branch, will offer as a substitute for the Wilson-McAdoo socialistic scheme of government-owned shipping. It is a clear cut and explicit proposal which the Republicans make in the Gallinger bill. Under its provisions both cargo ships—"tramp" vessels plying here and there—and mail, passenger and fast freight liners on regular routes will receive national encouragement. A subsidy at the rate of 1 cent per gross, registered ton for every hundred miles traversed on the outward voyage in foreign trade is offered to cargo craft of a type fit for approval by the Secretary of the Navy as transports, fuel ships, ammunition ships, supply ships, etc., on condition that they be held at the disposal of the government in time of need. Our present navy in a sudden war would require hundreds of auxiliary ships beyond the present resources of our mercantile marine and an enlarged navy would need many more. The value of these merchant vessels would be increased by Senator Gallinger's provision that they must carry a certain number of American boys to be trained in seamanship or engineering. Thus the shipowners in return for the compensation intended to place them on a fair equality in wage costs with their foreign competitors, would be rendering a specific service to the entire nation, apart from and beyond the delivery of American goods to overseas purchasers.

As to regular mail lines, Senator Gallinger takes a strong and timely step in making special provision for increased compensation not to exceed \$10 a mile outward to American-built steamships of the highest speed on the great trade routes to Europe. This proposal is substantially the equivalent of the British subsidy to the Cunard line, which produced the Mauretania and the Lusitania. If the plan were carried into effect it would give the United States the swiftest and most valuable steamships on the North Atlantic. Moreover, special provision is made in the Gallinger bill for an object for which the Republican senators have long contended—regular American steamship services to the further countries of South America and to the Orient.

The nations of the world are now expending in steamship subsidies \$50,000,000 a year, of which the British proportion is about \$10,000,000. The United States pays to American ships under contract for carrying the mails a little more than \$1,000,000 and receives it all back and more in ocean postage. Japan extends \$5,000,000 or \$6,000,000, and even Canada about \$3,000,000. The cost of the Gallinger bill would be perhaps \$5,000,000 with Pacific and Atlantic lines established.

Mr. McAdoo's plan calls for anywhere from thirty to fifty millions of initial expense, with a never-ending annual demand to pay the losses inevitable from government control. If Republican contentions in other regards are as well fortified as this one is, the party can look forward to all approaching debates in Congress with no anxiety.

INVESTORS IN MONTREAL BUBBLE GET CENT ON DOLLAR.

Montreal, January 10.—Over 3,500 investors in the Charles D. Sheldon get-rich-quick scheme, which burst with a loud noise when Sheldon was put behind the bars, will get exactly \$1.35 for each \$100 they put into the scheme. The slim dividend has been prepared, and it remained open to objection up to today. Checks will go to the creditors, those credulous investors who entrusted their savings to Sheldon, formerly known as the financial "wizard" of Montreal.

Some one asks why Congress goes to Washington for the three weeks before the holidays, when so business is ever done? Probably though some jobs are secured for constituents during that period.

The Chesapeake & Ohio railroad company has placed an order with the Pullman Company for the construction of twelve steel express cars. These cars are to be seventy feet in length and of the most modern construction.

After complaining because they have to work fifty-four hours a week in a factory or store, most of the girls seem to be willing to get married and work fourteen hours a day seven hours a week doing housework.

The fact that a man covers up his automobile motor with a blanket in cold weather because it goes better if kept warm, does not mean that he will remember to blanket his horse.

Attention, Mr. Farmer

C. M. Jones, Manager. R. B. Holton, Asst. Manager.

Many farmers have begun to see the light at "THE LIBERTY WAREHOUSE," of Maysville, Ky., which is not in the "COMBINE," and has the largest sales floor in Maysville and second largest in the county. The managers of THE LIBERTY WAREHOUSE promise the farmers nothing more than the best they can do as tobacco warehouse men. We do not claim that which is not ours by right, and have no time to knock other markets, as we are too busy boosting our own sales and the result is that new faces are seen on our sales floor each day and those faces are wearing a smile when their owners leave town.

Mr. A. M. Perry is our auctioneer and the man who helps you get the high dollar.

Let Charlie Jones place a smile upon your face by selling your tobacco with him where every man gets a square deal.
